PROFESSIONAL SUMMARY

Third-year Information Technology undergraduate with hands-on experience in Python and Java, and working knowledge of MongoDB and MySQL. Adaptable and eager to learn new technologies and tools.

EDUCATION

Bachelor of Engineering – Information Technology

Expected 2027

JSPM's Jayawantrao Sawant College of Engineering (JSCOE), Hadapsar, Pune | CGPA: 8.32

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern — WebStack Academy

Nov 2025 – Feb 2026

- Built Dwanikosh, a full-featured MERN-stack music player web application spanning authentication, personal library management, and playback modules.
- Implemented secure user authentication and onboarding flows across sign-up, login, and session management, following enterprise-grade security protocols.
- Engineered backend services and multiple API endpoints using Node.js and Express.js to enable seamless client-server data exchange.
- Designed a responsive, mobile-first UI using Tailwind CSS and React.js, ensuring consistent usability across mobile, tablet, and desktop breakpoints.
- Integrated MongoDB for scalable NoSQL data modeling and storage across all application modules.

Python Programming Intern — CodSoft

4 Weeks

- Developed 3 Python-based mini projects in 4 weeks: Console Calculator, To-Do List Application, and Rock-Paper-Scissors Game.
- Strengthened core Python skills including logic building, control flow, and user input handling through daily hands-on practice.

PROJECTS

Dwanikosh – Music Player Web Application | MongoDB, Express.js, React.js, Node.js, Tailwind CSS

- Developed a full-stack music player application spanning secure user authentication and personal library management modules.
- Designed a responsive, interactive UI and engineered scalable backend services connecting 4 core MERN technologies for efficient data flow.
- Integrated MongoDB for efficient NoSQL data storage and retrieval.

Pharmacy Management System | Python, MongoDB, HTML, CSS, JavaScript

- Designed and implemented an integrated system automating 3 core operations: sales, inventory, and supplier management.
- Built a functional dashboard to monitor revenue, low-stock alerts, and real-time sales trends across all product categories.
- Developed automated billing and real-time inventory tracking modules to reduce manual data-entry errors.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, MySQL

Data Science Foundations: NumPy, Pandas basics, Data Visualization

Concepts: Object-Oriented Programming (OOP), MERN Stack

Tools & Platforms: Git, GitHub, VS Code, Postman

CERTIFICATIONS

- SQL — HackerRank
- Responsive Web Design — freeCodeCamp
- Python Programming — CodeWithHarry
- Data Science — CodeWithHarry (In Progress)
